WILL HITCHCOCK

SUMMARY

Experienced JavaScript / TypeScript engineer. React / Redux / Express / Node / GraphQL. Agile. Code quality. Continuous integration. Always learning and applying new technology and concepts.

EXPERIENCE

SpotOn | *Remote*

Tech Lead	**Aug 2021 - Present**
Senior Software Engineer	**May 2020 - Aug 2021**

SpotOn's mission is to give small and midsize businesses a fighting chance, providing innovative software and payment solutions, supported by local and personal service, and delivered at a fair price. At SpotOn I am the technical lead for online ordering and am responsible for all aspects of application development.

- Design and implement sustainable software design patterns reducing application complexity
- Lead collaborative code reviews to foster continuous feedback and improvement
- Debug distributed applications and involve appropriate service owners to resolve issues

Fruit Street Health | *Remote*

Senior Software Engineer	**May 2020 - Mar 2021**

Fruit Street Clinic is an unparalleled telemedicine platform helping patients to stay healthy, safe, and informed. At Fruit Street I worked to deliver a modern web application to enable a fantastic patient experience.

- Worked with other engineers and leaders to define a new engineering culture
- Developed React / Redux applications to provide telemedicine services to service patients
- Worked to define code architecture, style guides and best practices for new React applications

StockX | *Detroit, MI*

Senior Software Engineer	**Nov 2018 - May 2020**

StockX is a 'stock market of things' - a consumer marketplace (like eBay) which connects buyers and sellers using the exact same methods as the New York Stock Exchange. I worked across various areas of the main StockX website, with a focus on quality, I worked with the team to increase test coverage and improve code quality across the application.

- Principally responsible for maintaining code for StockX's home, browse and product pages
- Estimate and develop features based on requirements using React, Redux and ExpressJS
- Contributed to code style guides, and best practices for React, Redux and ExpressJS
- Mentored other engineers on best practices and coding styles through pair programming

Ambassador | *Royal Oak, MI*
Software Engineer   Apr 2017 - Nov 2018

Ambassador is the world-leading referral marketing software, running today's most popular referral programs.

- Collaborated with a team to implement various front-end interfaces using React / Redux
- Worked with engineers and architects to determine and execute on project requirements

MRM // McCann | *Birmingham, MI*
Interactive Developer   Oct 2015 - Apr 20217

MRM // McCann is a leading customer relationship agency that leverages the power of creativity, the beauty of data, and the magic of technology to nurture, encourage and sustain strong relationships between brands and their customers.

- Collaborated with project teams to develop web components within project constraints
- Leveraged diverse technologies to create innovative solutions to client needs

CareTech Solutions | *Troy, MI*
Web Application Developer   Nov 2013 - Oct 2015

- Applied agile/Scrum development lifecycle to manage and facilitate projects
- Developed functional web applications using HTML, CSS, JavaScript, jQuery, JSP and AJAX

VOLUNTEER

Metro Detroit Flag Football League | *Detroit, MI*
Technical Consultant   Jun 2019 - Sep 2021

The Metro Detroit Flag Football League (MDFFL) is an LGBT and straight allied flag football league, changing preconceived societal beliefs about sexual orientation and self-identification. I served as an advisor to the board of directors and oversaw technology as a whole, including administering access to systems as well as developing and maintaining the current web presence.

- Responsible for devising and implementing all IT policies and systems to meet league needs
- Participate in quarterly board meetings to define and execute organizational goals
- Develop and maintain systems that are critical to the continued operation of the league
